Getting the Most out of Lecture Courses

NORTHWESTERN UNIVERSITY

Lectures

Interact: **Take notes**, but listen carefully so you follow the logic during class.

Interact: If you do not follow an argument or derivation ... ask for clarification.

Interact: If you have a substantive comment or remark on the material speak up.

Review your notes and fill in details of derivations while its fresh in your mind.

Exercises and Exams

Study: Do all exercises and problems from class and assignments.

Study: ***"Carry your own water"*.**

Study: "Correct your mistakes ... ''

Relax: Exams are just review.
